Microwave Sensors

The MS363 automatically turns on lights or any electrical device within the sensors rated load. It detects through obstacles like doors, glass panels, and thin walls, with a 360° detection range when mounted on a ceiling and adjustable settings for time, Lux level and sensitivity. The MS363 can simply be integrated into new or existing installations, it excels in detecting subtle movements over large areas compared to PIR sensors. Its IP20 rating is suitable for indoor installation. Installation must be done by a qualified electrician.
